THE TIGER

A MESSAGE TO YOU

PRINCIPAL
Mr. J. E. Farrell

Greetings:

We would like to express our thanks to those teachers and students at Clarke who have striven to help us sell the idea that "quality" education is our major objective here.

We strive to train for leadership so that our students may be able to fulfill the responsibilities that are cast upon them during their journey through life.

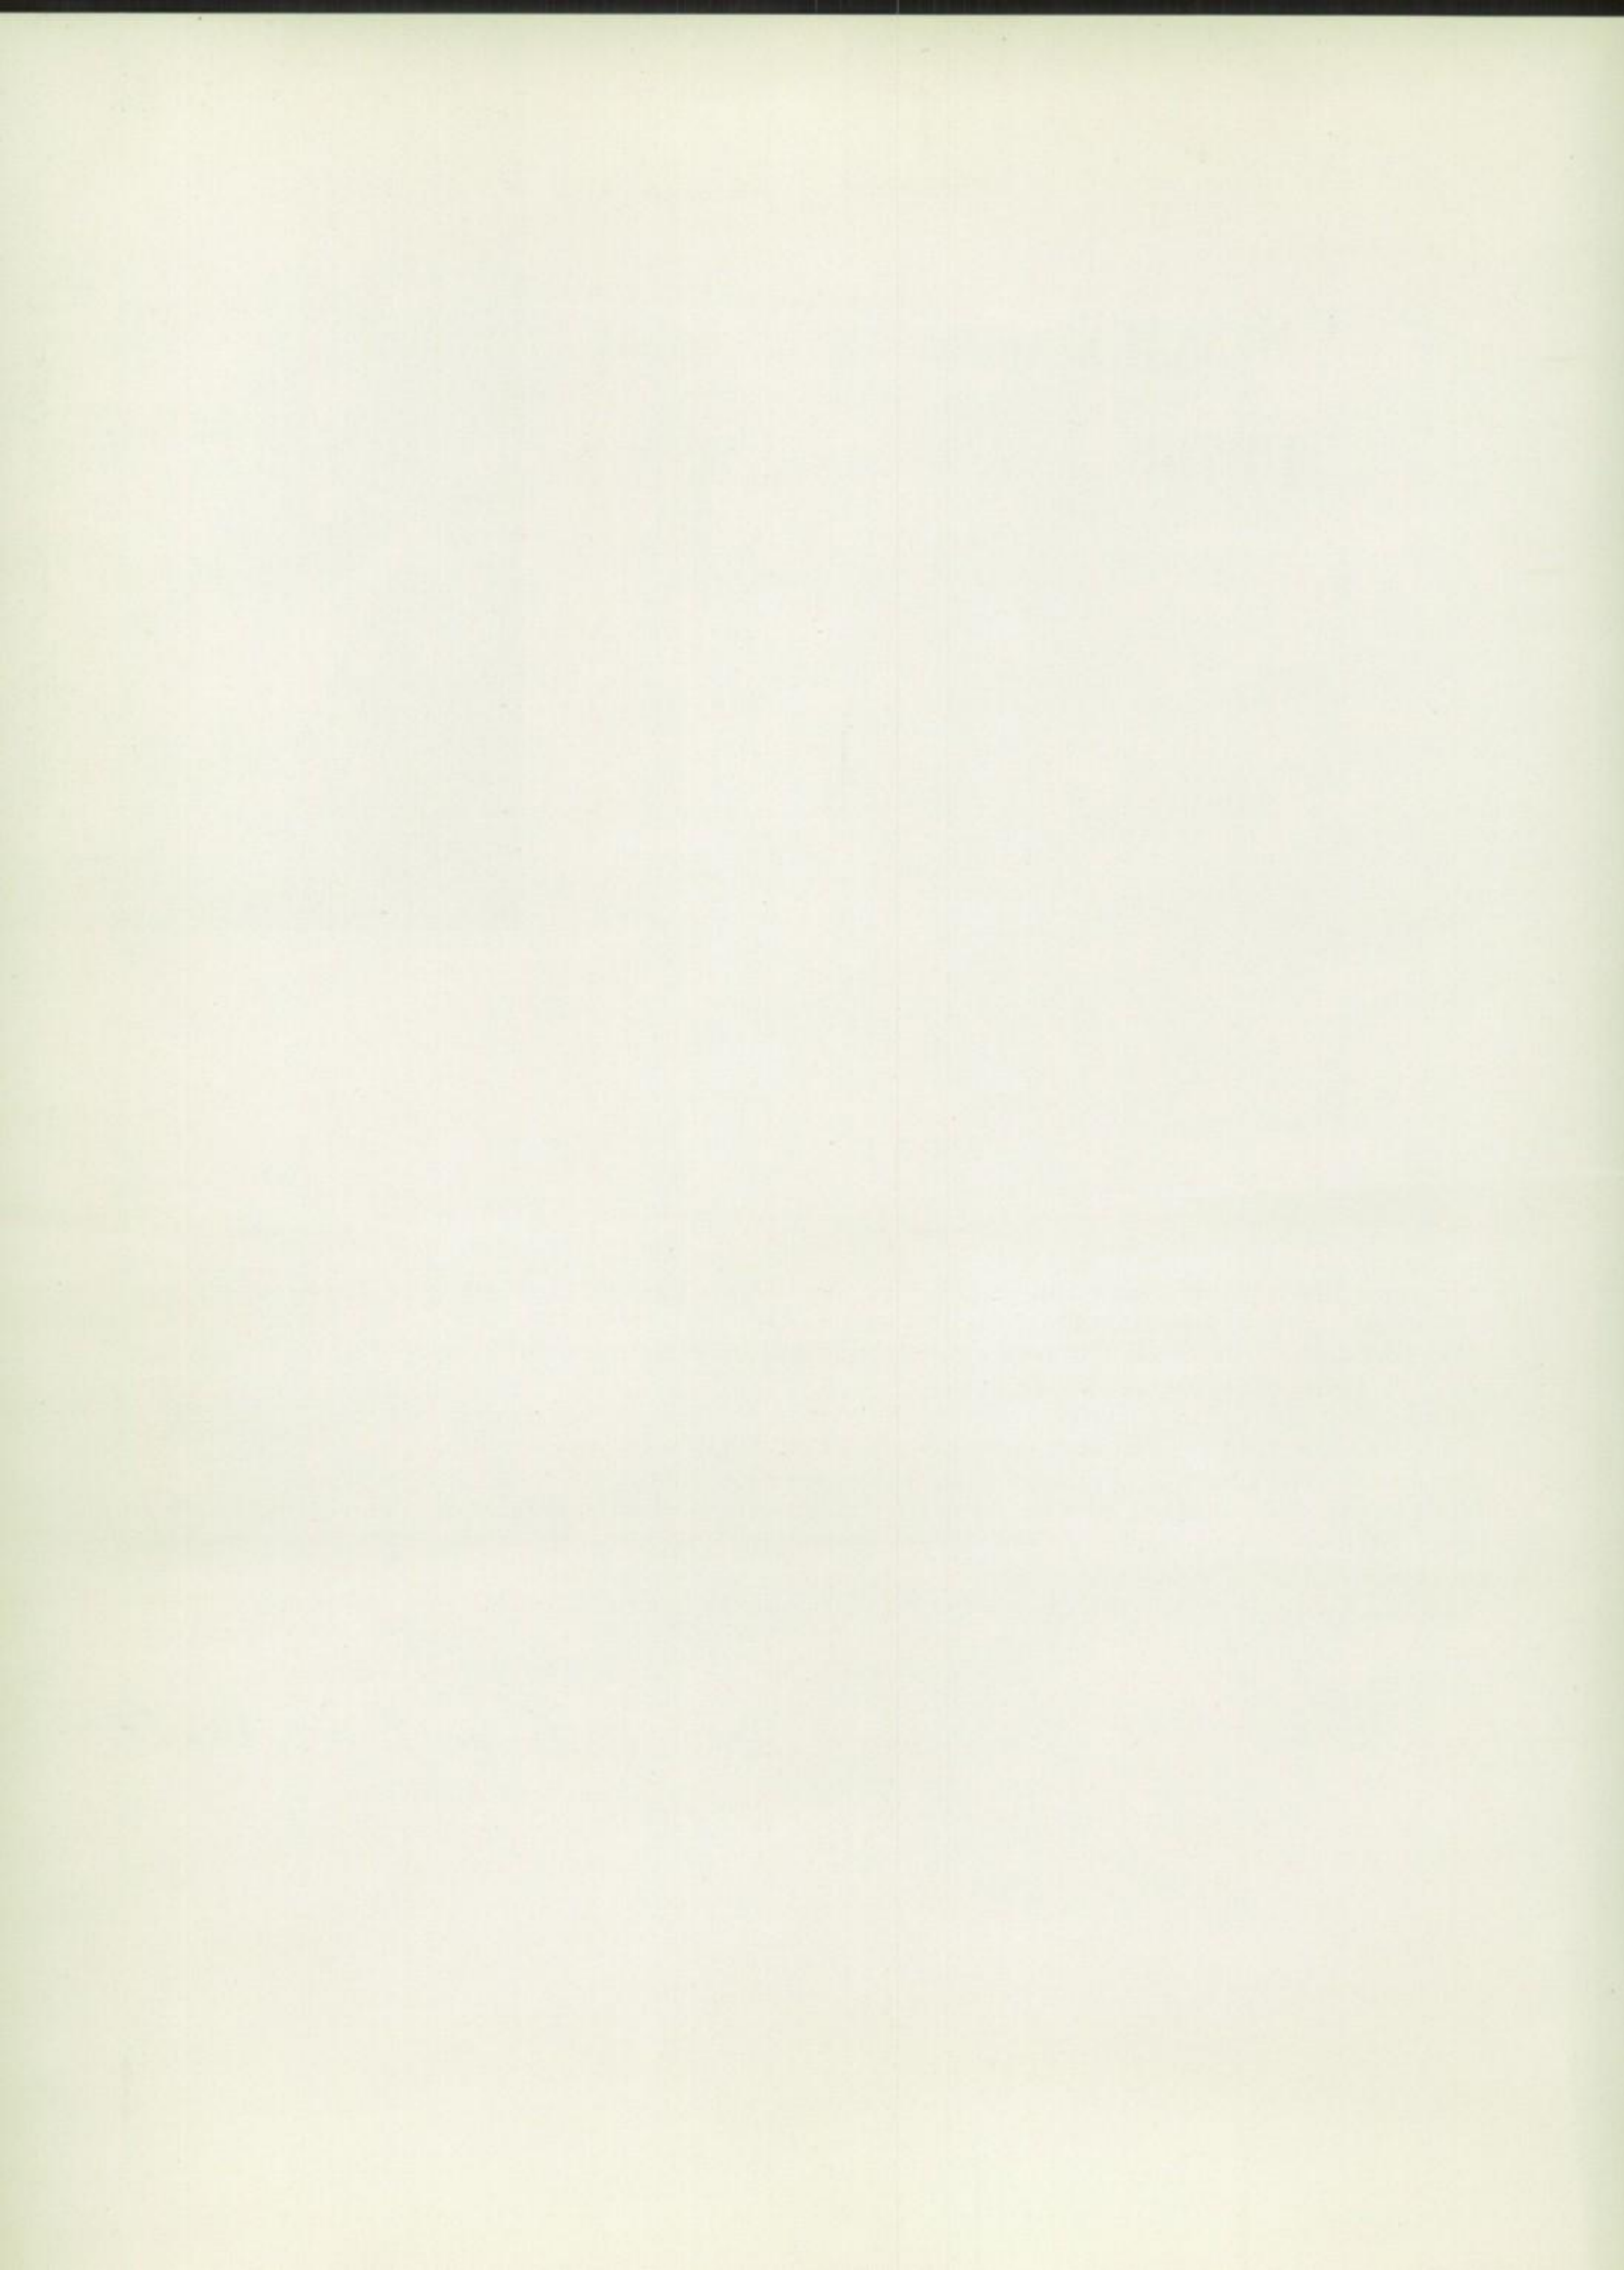

Our teachers attempt to establish a working situation in which pupils can do their best work, where they are encouraged and helped to learn worthwhile subject matter and develop useful skills.

Our students are given the advantage of cultural experience because we realize that in participating in cultural offerings, our students have an opportunity to grow intellectually, politically, and socially, and their lives are enriched and supplemented with the necessary cultural elements which help make them more considerate and thoughtful of others.

Finally our congratulations are extended to the Yearbook Staff and Advisors for a job well done.

Professionally yours,

James E. Farrell
